

Society for Head and Neck Anesthesia

2021 Virtual Annual Meeting: Evolving Topics in the Perioperative Care of Patients Undergoing Head and Neck Surgery

November 13, 2021

11:00AM—5:00PM EST

The Society for Head and Neck Anesthesia is a physicians' organization dedicated to improving the anesthesia and perioperative care of patients undergoing head and neck surgeries through clinical excellence, education, and research.

CME Accreditation Statement:

This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of the University of Michigan Medical School and the Society for Head and Neck Anesthesia. The University of Michigan Medical School is accredited by the ACCME to provide continuing medical education for physicians.

The University of Michigan Medical School designates this live activity for a maximum of 4.5 AMA PRA Category 1 Credit(s)[™]. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Maintenance of Certification in Anesthesiology:

Maintenance of Certification in Anesthesiology[™] program and MOCA[®] are registered trademarks of The American Board of Anesthesiology[®]. This activity contributes to the CME component of the American Board of Anesthesiology's redesigned Maintenance of Certification in Anesthesiology[™] (MOCA[®]) program, known as MOCA 2.0[®]. Please consult the ABA website, www.theABA.org, for a list of all MOCA 2.0 requirements.

Learning Objectives

- 1. Recognize the importance of readily available systematic documentation for healthcare providers and patients with known and/or anticipated difficult airways.*
- 2. Consider approaches to and considerations for minimizing opioids in head and neck surgery.*
- 3. Recognize training techniques and programs to optimize outcomes and communication in head and neck surgery and airway management.*
- 4. Consider approaches to and management of tracheal transplantation.*
- 5. Appreciate perioperative approaches to optimize outcomes for patients undergoing interventional pulmonology procedures.*
- 6. Understand and practice management approaches for head and neck free flap reconstruction.*
